

REMARKS

Claims 1-16 have been cancelled as being in a "use" format not generally acceptable under United States Practice. Independent claims 19, 20, 25 and 26 have been amended to insert "in need thereof" to define the patient to whom the method is applied, and to delete "such as a human" as not being in accordance with United States practice. Minor formal amendments have been made to dependent claims 21-24, including updating their multiple dependencies. New claims 27, 28, 29 and 30 have been added, patterned after claims 19, 20, 25 and 26, and directed to a method for treating a cancer involving a solid tumour. Support for treating a cancer involving a solid tumour is found throughout the specification, for example at page 6, line 25 through page 7, line 5.

No new matter is added by these amendments, and entry thereof is believed to be in order and is respectfully requested. Following entry of these amendments, claims 17-30 are pending in this application.

No additional fees are believed due other than those charged with this new application filing. However, any and all charges or credits should be submitted to the Morgan Lewis & Bockius LLP Deposit Account No. 50-0310.

Respectfully Submitted,
Morgan Lewis & Bockius LLP
